On site service with free pick-up/drop-off if your project can't best be completed at your home or office

Serving Summit and the Surrounding Counties

Service Packages*

Classic Tune-Up \$49.99
Our Tune-Ups include a full inspection of your bicycle, including your tires, cables, seat post, stem and handlebar, brakes and drive train. We then adjust your hubs, headset and bottom bracket, true your wheels and finish with derailleur and brake adjustments.
Single speed deduct \$10.00
Tandem add \$20.00

Premium Tune-Up \$79.99
We start off with our standard Tune-Up and then remove your drive-train components and clean them in our ultra-sonic parts cleaner, the cleanest and most environmentally sound way to clean your components. We then reinstall and adjust your components and lubricate your drive train.
(This service will be performed in our shop.)

Deluxe Tune-Up \$149.99
We start off by completely disassembling and cleaning your bicycle. We then overhaul your headset, hubs and bottom bracket when possible and replace any loose ball bearings with stainless steel replacements. Your bicycle is reassembled and your cables are replaced with stainless steel cables. We then clean your drive train as described in our Premium Tune-Up.
(This service will be performed in our shop.)

Pro Builds **New Frame/Parts \$119.99**
 New Parts/Existing Frame \$149.99
We will install your parts on your new frame or install new parts on your old frame. Includes a full Tune-Up and 30-day inspection.
(This service will be performed in our shop.)

Drive Train Clean \$39.99
(Without a Tune-Up)
We remove your drive train components and clean them in our ultra-sonic parts cleaner, the cleanest and most environmentally sound way to clean your components. We then reinstall and adjust your components and lubricate your drive train.

*All basic shop supplies included; other parts and labor may add additional costs.

How it works

Care-Free Bicycles provides at-home bicycle service in Summit and the surrounding counties. All prices listed will include travel up to 20 miles from Stow, Ohio as long as our minimum service charge of \$25.00 is met. If your home or office is further then 20 miles there may be an additional charge to cover fuel and travel time. We will make exceptions whenever possible. Our goal is to keep our pricing low so this charge will be waved if we can coordinate your service call with another appointment or the size of the job justifies waving the fee. There will not be additional charges if your bicycle needs to be brought back to the shop because either additional parts are needed or we feel you will be better served having your service performed in our fully equipped shop. We will always do our best to accommodate your schedule, coming to your home or office by appointment anytime Monday through Saturday.

Special Orders

We keep many common parts and accessories in stock. We also have access to many product lines and will never charge shipping for any parts used for your repair, or any parts or accessories that we will bring with us during our service calls. If you have any part or accessory needs let us know in advance so we can have them in stock in time for your service appointment. We will charge for special orders that are shipped from our warehouse to your home or office. Please call or e-mail with any pricing questions.

Care-Free Bicycles

Mobile Bicycle Repair - fast and on YOUR schedule!

Care-Free Bicycles is a mobile bike shop. With the goal of making cycling more care-free, we work around your schedule, providing the fastest service possible without you ever having to load up your bicycle and bring it into the shop. We will perform many repairs at your home or office, bringing with us many of the parts or accessories we may need to help you. If you would be better served in our fully equipped service shop, we will pick-up and drop-off your bike at your convenience. At Care-Free Bicycles we are here to service your bicycle, not replace it.

On-Site Repairs - Pick-Up and Drop-Off Services Available

Many services can be completed at your home or office; free pick-up and drop-off service available when needed.

All service guaranteed for 1 year.

A Truly "Service Oriented" Experience

Know your mechanic - don't leave who works on your bike to chance.
